ACCESS CONTROL & GATE AUTOMATION

XB-T23 WIRELESS REMOTE FOR MOTORS & BARRIERS

4-button 433.92 MHz remote for AccessPRO motors, barriers and XB-REC-2/XB-REC-3 receivers.

KEY FEATURES / CARACTERÍSTICAS CLAVE

01 433.92 MHz operating frequency for reliable signal transmission

02 4 multifunction buttons for versatile device control

03 6V operation powered by 2 CR2025 batteries

04 Compatible with AccessPRO XBS-PK03, XBS-IZ1200, XBS-CAN-AC800, XBS-SZ-2000

05 Works with XB-REC-2 and XB-REC-3 receivers for other brands

06 Controls XBF-3000, XBS-5000, XBF-4M and XBS-6M barrier series

07 Operates from -10°C to 50°C with 160 mA max consumption

The ACCESSPRO XB-T23 is a 4-button wireless remote control built for AccessPRO gate motors and barrier systems. Operating at 433.92 MHz and powered by two CR2025 batteries, it performs reliably from -10°C to 50°C. Pair it with XB-REC-2 or XB-REC-3 receivers to control third-party automation brands. Backed by a 3-year warranty.

TECHNICAL SPECIFICATIONS / ESPECIFICACIONES TÉCNICAS

Model	XB-T23
Brand	ACCESSPRO
Operating Frequency	433.92 MHz
Operating Voltage	6V
Batteries	2 x CR2025
Control Buttons	4 multifunction buttons
Maximum Consumption	160 mA
Operating Temperature	-10°C to 50°C
Compatible AccessPRO Motors	XBS-PK03, XBS-IZ1200, XBS-CAN-AC800, XBS-SZ-2000
Compatible Receivers	XB-REC-2, XB-REC-3
Compatible Barriers	XBF-3000, XBS-5000, XBF-4M, XBS-6M series
Third-Party Compatibility	Requires XB-REC-2 or XB-REC-3 receiver
Warranty	3 years
SAT Key	46171619

FUNCTIONS / FUNCIONES

01 Wireless activation of AccessPRO gate motors

02 Barrier control for XBF and XBS series

03 Multi-device control via 4 multifunction buttons

04 Integration with third-party brands via XB-REC receivers

05 433.92 MHz signal transmission

06 Battery-powered with 2 CR2025 cells

07 All-weather operation from -10°C to 50°C
