WALK-THROUGH METAL DETECTOR

APMESC18 18-ZONE WALK-THROUGH METAL DETECTOR

Pinpoint metal detection across 18 zones with remote programming and built-in people counting.

KEY FEATURES / CARACTERÍSTICAS CLAVE

01 18 independent detection zones pinpoint metal from head to toe

02 Detects both ferrous and non-ferrous metals

03 Multi-frequency operation allows side-by-side installations

04 Infrared sensor minimizes false alarms

05 Alphanumeric display with remote control programming

06 High throughput: screens more than 50 people per minute

07 Anti-tamper alarm and 4-digit password protection

The ACCESSPRO APMESC18 is an 18-zone walk-through metal detector built for fast, accurate indoor screening. Multi-point precision technology pinpoints metal objects from head to toe, while an infrared sensor prevents false alarms at over 50 people per minute. Remote programming and pass/alarm counting make it ideal for airports, courthouses, and factories.
