ACCESS CONTROL / EXIT DEVICES

PRO815B EXIT BUTTON WITH EASY-INSTALL BOX

Surface-mount NO exit button rated for 500,000 cycles, built for fast, dependable access control installs.

KEY FEATURES / CARACTERÍSTICAS CLAVE

01 Normally open (NO) contact with COM terminal for wiring flexibility

02 Rated for 500,000 press cycles for long-term reliability

03 Supports up to 3A @ 24VDC for broad system compatibility

04 Durable steel button mounted on a rugged alloy base

05 Includes surface-mount box for fast, clean installation

06 Bolt-free, elegant design for secure and sleek egress points

The ACCESSPRO PRO815B is a normally open (NO) exit button built for dependable egress in access control and gate automation. Its steel button and alloy base are rated for 500,000 cycles, and the COM/NO output handles up to 3A at 24VDC. The included surface-mount box enables fast, clean installation, backed by a 3-year warranty.

TECHNICAL SPECIFICATIONS / ESPECIFICACIONES TÉCNICAS

Model	PRO815B
Brand	ACCESSPRO
Product Type	Exit button with surface-mount box
Contact Output	COM / NO (normally open)
Max Supported Current	3A @ 24VDC
Supported Voltage	Up to 24VDC
Cycle Test Rating	500,000 cycles
Dimensions	83 x 32 x 25 mm (L x W x H)
Weight	0.12 kg
Operating Temperature	10°C to 55°C
Operating Humidity	0% to 95%
Button Material	Steel
Base Material	Alloy
Warranty	3 years
SAT Key	46171619

FUNCTIONS / FUNCIONES

01 Momentary egress release for access-controlled doors

02 NO contact output for lock and gate operator triggering

03 Surface-mount installation with included box

04 Integrates with 24VDC access control systems

05 High-cycle durability for high-traffic exit points

06 COM/NO wiring for flexible panel integration
