GATE AUTOMATION / ACCESS CONTROL

XBA-MOTOR REPLACEMENT MOTOR FOR XB BARRIERS

OEM-grade replacement motor engineered for a seamless fit with XB5000R and XB6000R barrier operators.

KEY FEATURES / CARACTERÍSTICAS CLAVE

01 Direct compatibility with original motor gears, no modifications needed

02 Drop-in installation with no additional components required

03 Seamless integration with existing XB5000R / XB6000R barrier systems

04 Service-friendly design optimized for fast, easy maintenance

05 Reliable performance under normal operating conditions

06 Manufactured to professional quality standards

07 Backed by a 3-year ACCESSPRO warranty

The XBA-MOTOR is a genuine replacement motor for ACCESSPRO XB5000R and XB6000R barrier operators. Designed to work with the original gear assembly, it installs directly with no additional components, minimizing downtime and service costs. A maintenance-friendly design and professional-grade manufacturing ensure dependable daily operation, backed by a 3-year warranty.

TECHNICAL SPECIFICATIONS / ESPECIFICACIONES TÉCNICAS

Model	XBA-MOTOR
Brand	ACCESSPRO
Product Type	Replacement motor for barrier operators
Compatibility	XB5000R and XB6000R barrier models
Gear Compatibility	Works with original motor gears
Installation	Direct fit, no additional components required
System Integration	Seamless with existing barrier systems
Design	Optimized for easy maintenance
Operating Conditions	Reliable under normal conditions of use
Manufacturing	Professional quality standards
Application	Barrier gate automation and access control
Warranty	3 years
SAT Key	46171619

FUNCTIONS / FUNCIONES

01 Powers automatic barrier arm open/close cycles

02 Restores full operation of XB-series barriers

03 Drives the original gear transmission system

04 Supports routine preventive maintenance schedules

05 Reduces downtime with fast swap-out replacement

06 Maintains continuous access point availability
